

Write the multiplication sentence.

1. $3 + 3 + 3 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

2. $5 + 5 + 5 + 5 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

3. $2 + 2 + 2 + 2 + 2 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

4. $4 + 4 + 4 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

5. $6 + 6 + 6 + 6 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

6. $7 + 7 + 7 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

7. $8 + 8 + 8 + 8 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

8. $9 + 9 + 9 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

9. $10 + 10 + 10 + 10 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

10. $5 + 5 + 5 + 5 + 5 = \underline{\hspace{2cm}} \times \underline{\hspace{2cm}}$

Complete the addition and multiplication sentences.

1. $4 \times 3 = 3 + 3 + 3 + 3 = \underline{\hspace{2cm}}$

2. $5 \times 2 = 2 + 2 + 2 + 2 + 2 = \underline{\hspace{2cm}}$

3. $3 \times 6 = 6 + 6 + 6 = \underline{\hspace{2cm}}$

4. $2 \times 8 = 8 + 8 = \underline{\hspace{2cm}}$

5. $4 \times 5 = 5 + 5 + 5 + 5 = \underline{\hspace{2cm}}$

6. $3 \times 7 = 7 + 7 + 7 = \underline{\hspace{2cm}}$

7. $5 \times 4 = 4 + 4 + 4 + 4 + 4 = \underline{\hspace{2cm}}$

8. $2 \times 9 = 9 + 9 = \underline{\hspace{2cm}}$

9. $6 \times 3 = 3 + 3 + 3 + 3 + 3 + 3 = \underline{\hspace{2cm}}$

10. $4 \times 6 = 6 + 6 + 6 + 6 = \underline{\hspace{2cm}}$

Fill in the blanks.

1. In $5 \times 4 = 20$, the multiplicand is .

2. In $5 \times 4 = 20$, the multiplier is .

3. In $5 \times 4 = 20$, the product is .

4. In $7 \times 3 = 21$, the multiplicand is .

5. In $7 \times 3 = 21$, the multiplier is .

6. In $7 \times 3 = 21$, the product is .

7. In $9 \times 6 = 54$, the multiplicand is .

8. In $9 \times 6 = 54$, the multiplier is .

9. In $9 \times 6 = 54$, the product is .

10. In $8 \times 5 = 40$, the product is .
